- Play Store Developer
 - The odd one out
 - Lamp

OBJECTIVE

Software Engineer with 4+ years of experience in system design, data security and analysis, and full-stack development. Proficient in Python, Java, SQL, Flutter, and JavaScript. Currently working at Oracle as a Software Engineer and at UPC as an Associate Professor, where I lead Scrum teams in the role of Product Owner. I'm also a published Play Store app developer and the creator of FCBQbot, a Telegram bot that streamlines basketball refereeing and event coordination.

Now looking to expand my expertise and contribute to impactful projects in generative AI or DevOps, leveraging my background in software engineering and agile leadership to solve complex, realworld problems.

EDUCATION

Bachelor's degree in Informatics Engineering 2019 - 2023

Major in Software Engineering

Polytechnic University of Catalonia (UPC - FIB)
